

Tell your Wife Now what to Do with the Insurance Check

Just at the time when your wife is least able to use her judgment, and consider a proposition unemotionally, she will receive a check from the insurance company—the evidence of your present forethought and unselfishness.

You should instruct her to deposit her insurance check in some good bank, and before withdrawing for investment of any kind seek the approval of her bankers.

Perhaps you should put these instructions IN WRITING, NOW, with the name of the bank. Then your foresight and unselfishness will not be in vain.

STATE NATIONAL BANK OF ARDMORE

SAFETY COURTESY ACCOMMODATION

OIL and GAS NEWS

L. Teatsorth, who was in the city Friday night, left Saturday morning for the fields.

Robert Watchorn in section 20-4-3 on the Ed Newton farm is building a rig for well No. 1.

W. G. Skelley of the Skelley and Sankey company, and E. M. Woodruff left here yesterday morning for the fields.

Ralph W. Day of Oklahoma City, who has interests at Healdton, is here on some legal matters connected with a lease which he has in the southeast extension.

Stockmans Oil company No. 5 in section 22-4-3 is drilling at a depth of 500 feet, and the rig is up for No. 6, and that well will be spudded in tomorrow.

Gunsburg & Forman have two wells shut down on the McCoy lease in section 22 and one on the same lease in section 23, on account of the lack of casing.

L. C. Hivick was in the fields yesterday.

G. E. Burford is in the city from Muskogee.

E. A. Felmlee, a Healdton field contractor, was in the city last night.

F. N. Morgan of Oklahoma City who is a busy oil man, was here last night.

The Cal Stewart well in Love county has set the 15-inch casing at 175 feet.

Cal Stewart and Hugh L. Sturm are in the city from the Stewart well in Love County.

The Burford well in 12-6-2w is at a depth of 750. The drill is in a dry sand with showing of asphalt or heavy oil.

The Oklahoma Star has made locations and is building rigs for Nos. 5 and 6 on the Ingram lease in section 16-4-3.

Producers Oil Company in 26-4-3 has reached a depth of 1750 feet and the hole is full of salt water. The water was found where oil was expected and the well may be abandoned where it is, but it has not been abandoned yet.

The Fox Pool well in 5-2-3 has reached a depth of 1750 feet. Trouble has been had in shutting off water found at 1600 feet. No water has been found in the past 150 feet, and the hole is in good shape now, and a gas or oil sand should be reached the early part of the week.

Plugged a Well.

C. E. Sykes is plugging the McMillan-Statt well in Marshall county offsetting the Arbuckle field. The well was a failure at 565 feet, and

has been abandoned. He had C. P. Smith of the Ardmore Oil company to do the plugging.

J. L. Hamon has sold out his town-site interests in a three-day auction sale at Ringling and will devote his entire energies to the oil business. The last one of 800 lots was sold Saturday afternoon at 3:00 o'clock.

Southeast Activity.

Healdton field producers state that within 60 days there will be as many as 100 wells in the southeast extension in sections 15, 22 and 23. The Magnolia, J. L. Hamon, Gunsburg & Forman, the Producers and the Gates people are all drilling in that area.

Make Noise Monday Morning.

Robert Watchorn in section 16-4-3 in the township south of Healdton field, will begin drilling Monday morning. An 18-inch hole will be started and a deep test will be drilled, if necessary. L. Teatsorth, who has done much drilling for Mr. Watchorn in California, has the contract.

Pipe Line Completed.

The Texas Company has its 8-inch line completed from the Teague farm in section 3-4-3 to its tank farm near Wilson, but the company has no pump station built, and has no gathering system. It is evidently waiting until such time as the producers will make deliveries of their oil to the line.

Tank Did Not Burn.

Steel tank No. 2 on the Emma Watkins lease in 10-4-3, which was sold by the Gates company to C. J. Skidmore, was struck by lightning on the same afternoon that the McMan and Magnolia lost two tanks on their farm in Jefferson county. The Skidmore tank was bulged on the top in three places, showing that it had been very roughly handled. It had no fire protectors of any kind, but escaped without being burned, which is considered somewhat remarkable.

Colcord Visits Healdton.

C. F. Colcord and his secretary, E. G. Bedford, arrived here Friday and went out to the fields. They returned here and left at night for Oklahoma City. Mr. Colcord is interested with J. L. Hamon in production at Healdton, and has made frequent trips to the Ardmore oil district for several years.

Southeast of Wilson.

The George J. Ames well in section 6-5-1w should be drilling now within a short time. The rig has been completed at the location in the northeast corner of the southeast quarter of the section named. The drilling contract has been awarded to the McBride Drilling company. The location is two miles southeast of the Texas tank farm near Wilson, on the Ramsey farm. The well is to be drilled to a depth of 1,500 feet, and the eight-inch is to be carried to that depth. The well will be in shape to be drilled deeper with the large casing carried so deep.

Phone 1254 for your week's supply of groceries, and note the saving.
SPENCE DAVENPORT.

Gates Making Completions.

Gates Oil company No. 16 Rayson Wesley in section 10-4-3 was being drilled in yesterday. Same company on the Sivin Ward lease in section 15-4-3 is drilling in well No. 6 and a rig up for No. 7. No. 5 on the Simeon Jackson lease in section 15-4-3 is fishing and a rig is up for No. 6. On the Lizzie Carnes lease in section 15-4-3, No. 4, No. 5 and No. 7 are being drilled in; No. 7 well on this lease had two sands above the other sands in the same locality. When the drill entered the third sand oil was thrown 40 feet above the derrick and is showing up for a good well. The Gates company has 80 acres in section 22 and 40 acres in section 23, where it will have some offsets due within a few days.

OIL INVESTOR

We have organized the Union Limited Oil Co., with a capital stock of \$50,000, limited to 500 memberships at \$100.00 each, payable, \$10 down and \$5 per month. We will operate on the same plan as the Coline and the Plains Oil & Gas Co. We will purchase oil leases and lands against all locations and drilling wells of merit. Our trustees are: J. S. Mullen, E. E. Chivers, R. A. Fox, Rev. Golden-Howes of Ardmore, and E. M. Hill, Cashier of First National Bank, Checotah, Oklahoma. Our stock is going fast. If you wish to get in, act NOW. Phone to any of the above gentlemen, or No. 700, and they will reserve the number of memberships you want. This plan is a golden opportunity for small investors as well as large ones.

HENSHAW VISITS HEALDTON**Will Take No Official Action Until Formal Complaint.**

George A. Henshaw, member of the state corporation commission, came in from the fields Friday night where he went on the ground to observe the conditions that exist there. He reports that the field has 872 producing wells, and has about 250 locations in the proven area yet to be drilled. He found the Magnolia producing oil on the basis of 60 per cent of the production, while the Producers pipe line and the Ardmore refinery people were running 100 per cent of the oil from the leases with which they have connections. The Magnolia is running 20,000 barrels, and while it reduced the percentage it did not reduce the runs. It seems that as soon as the producers learned that all of their oil could not be taken, some of those who were running exclusively to storage, began making runs to the pipe line, and for that reason the percentage had to be reduced. The total percentage of oil that is being run is about 80 per cent of the production. Mr. Henshaw states that it will give up as much wealth as Cushing, for the reason that the wells will produce for a longer period of time. His first statement was that the commission would issue some kind of an order tomorrow, but after looking further into the question involved, the commissioner concluded that it would be better to wait until formal complaint had been made before the commission and a hearing be had before any orders were issued. Several of the producers who would rather see the pipe lines harmonize the field than have the state take it over, made the request to the commissioner that they have a hearing before any orders are made. The Magnolia company seems to be anxious for the state to take the field in hand, and prorate the runs.

Frame Drug Company—Steffens' Ice Cream. Phone 387.

Dizziness, vertigo, (blind staggers) sallow complexion, flatulence are symptoms of a torpid liver. No one can feel well while the liver is inactive. HERBINE is a powerful liver stimulant. A dose or two will cause all bilious symptoms to disappear. Try it. Price 50c. Sold by Bomar Drug Company.

Close in oil and gas leases on approved form in the Big Anticline Field west of Marlow and near Doyle, Oklahoma, Stephens county. Rig on the ground to drill, formation approved by the best geologists. Prospects for rich oil strike. Moderate prices if bought at once. Address Post Office Box 216, Marlow, Okla. 7-3

WHY WE SELL

STEIN BLOCH and SCHLOSS BRO'S. CLOTHES

We believe in the policy behind them. The manufacturers of these clothes are recognized the world over as being the best custom tailors in the country. There have been many attempts to imitate STEIN-BLOCH, and SCHLOSS BROS. SMART CLOTHES. There probably always will be such attempts. But there is a certain inherent goodness in the building of the clothes that only such master craftsmen can produce.

Character of this kind cannot be imitated, yet it is the point of difference between art and ordinary tailoring. We are showing a splendid assortment of the new spring models and materials at from

\$10 to \$35

Cool Cloth Summer Suits

In a great Assortment of all the New Fabrics and Models that range in Price from

\$5 to \$8.50
